SpectrumV™ Holographic Bird Gel™

GENERATE RECURRING REVENUE

BIRD CONTROL MADE EASY!

SpectrumV™ Holographic Bird Gel™ is an easy, economical, and effective sensory bird control solution. Each easy-to-apply dish contains an innovative gel that uses a combination of sight, sense and smell to keep birds away from edges, ledges, and more!

SIGHT

Holographic reflection technology creates visual hot spots that scares birds away.

SENSE

When touched, birds do not like the sticky sensation on their feet, encouraging them to leave the area.

SMELL

Proprietary blend of ingredients creates an aroma that is unpleasant to birds - an instinctive bird deterrent.

SpectrumV™ Holographic Bird Gel™ is used to deter sparrows, pigeons, gulls, crows, starlings, woodpeckers, and other bird species from buildings and structures.

Installation

For surfaces and ledges, 5" wide or less, space dishes every 8". For surfaces and ledges greater than 5" in width, additional rows of dishes may be required.

For surfaces & ledges 5" wide or less

Space dishes every 8"

For surfaces & ledges greater than 5" wide

Space dishes every 8"

Bird Species	All birds
Bird Pressure	Light to medium
Where to Use	Rooflines, ledges, signs, I-beams, railings, gutters, window sills, HVAC units, parapet edges, equipment, street lights, and other places where nuisance birds may congregate.
Materials	Each PVC dish contains an innovative, pro-prietary gel that uses a combination of sight, sense and smell to keep birds away.
Packaging	Each box contains (24) easy-to-apply U.V. protected PVC dishes.
Installation	Easy. Consult the product installation instructions for dish placement guidelines. Dishes can be adhered to most surfaces. Silicone or other removable adhesive sold separately.

Advantages & Benefits

- Ideal for commercial and residential use
- Easy, economical, and effective
- Effectively deters all bird species*
- Protects edges, ledges, and more!
- Low-cost solution
- Tri-sensory bird repellent action
- Easy to install - no assembly required
- Humane - not harmful to birds
- U.V. protected - won't degrade or discolor in sunlight
- Built-in glue troughs for better dish adhesion
- Product placement is fast and easy
- Increasing coverage is as simple as placing an additional dish

*To reduce hazards to legally protected species and to avoid noncompliance with Federal Migratory Bird Treaty Act, follow all product installation instructions.
