Avian BLOCK™ Aromatic Bird Repellent

GENERATE RECURRING REVENUE

Multi-Purpose Bird Control

Avian Block™ is an aromatic bird repellent that uses passive scent technology to disperse Methyl Anthranilate (MA) into the air to effectively repel all birds from outdoor and semi-enclosed areas.

Avian Block™ uses a bird aversion ingredient called Methyl Anthranilate (MA). MA is a naturally occurring, non-hazardous food-grade ingredient that is widely used in various industries to give products grape scent and flavor.

Quick and easy Avian Block™ is a humane, non-lethal easy to use; will repel birds for up to 3 months.

Keep nuisance birds away from commercial, agricultural and residential properties with Avian Block™.

Bird Species	All birds including grackles, crows, woodpeckers, etc.
Bird Pressure	Light to heavy
Where to Use	Commercial /residential structures, trees, vines, shrubs, bushes, picnic or patio areas, under house eaves, attic spaces of garages or storage sheds, rafters, warehouses, walkway covers, industrial equipment, and more.
Materials	Each bird repellent pouch or block contains the active ingredient Methyl Anthranilate (MA) – 14.75% (proprietary form).
Packaging	6 pouches per bag. One pouch or block equals 1.8 oz. (50 g)
Installation	Easy. Hang pouches 6 to 10 feet apart. Consult the product label for placement guidelines.
