INC.
Professional Bird Control Products Since 1992

Case Study

New shopping center takes proactive bird control measures

Location: El Toro, CA

Bird Problem: The property managers had experienced bird problems at other properties and decided to take a proactive approach by installing bird spikes to discourage birds from landing.

Product Installed: Stainless Steel Bird Spikes from Bird-B-Gone, Inc.

Product Details: Bird-B-Gone Stainless Steel Bird Spikes are used to physically block birds from landing on flat or curved surfaces. Bird spikes are a humane way of keeping large birds off window sills, signs, walls roofs and other areas. Stainless Bird Spikes from Bird-B-Gone carry an industry leading 10-year guarantee.

Stainless Steel Bird Spikes were installed over retail entryways to prevent bird mess.

Birds cannot land on the spikes' uneven surface and will move on to a better spot.

Bird Spikes are an ideal way of preventing large birds from landing on lightposts.

Bird-B-Gone's Stainless Bird Spikes blend right in with the scenery.
