Bird•B•Gone™

Bird Spike

Polycarbonate

No Assembly Required!

One row of Perma Spike Polycarbonate will cover 7" in width. Install Perma Spike Polycarbonate with at least 1/2" overhanging outer edge of Ledge, roof-line, window sill, etc.

Allow no more than 1" of space between back of spikes and wall, window, etc.

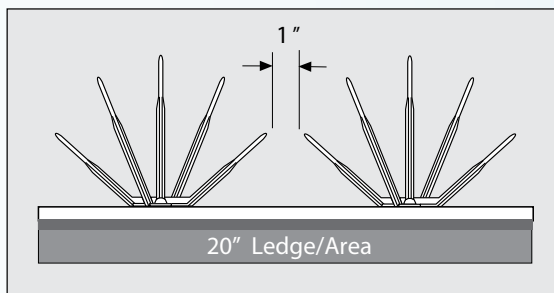

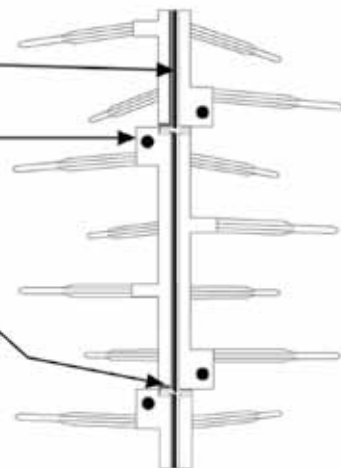

*Since 1992...the Lowest
Cost, Longest Lasting
Polycarbonate Bird Spike!*

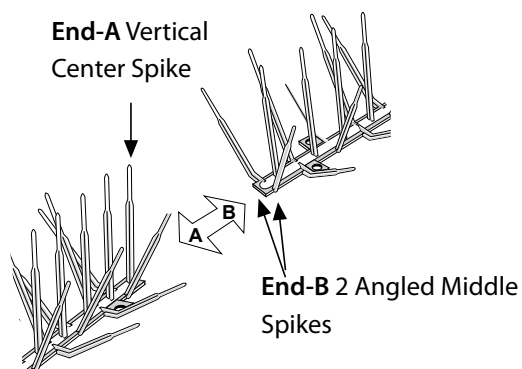

GLUE TROUGH FOR EASY
AND NEAT GLUING

OFFSET PRE DRILLED HOLES
FOR SCREW ATTACHMENT

SNAP OFF NOTCHES..
BREAK OFF FOR SMALLER
SECTIONS

For areas greater than 7" in width - multiple rows of Perma Spike Polycarbonate may be used to ensure complete coverage. *Do not leave more than a 1" gap between rows.*

When Installing 2 or more lengths of spikes be sure to match End-A to End-B to prevent small openings where birds could land. *Apply End-A to End-B only!*
