Bird Spider[®] 360[°]

The Spinning Bird Spider

The Bird Spider[®] 360[°] is a rotating bird deterrent designed for seagulls, pigeons and larger birds. Its stainless steel "arms" rotate and bounce in the wind scaring birds away from the treated area.

- ▶ Humane - Does Not Harm Birds!
- ▶ Folds Up and Stores With Ease!
- ▶ Multiple Mounting Options!

"Scuff Free" tips prevent the arms from becoming tangled or scratching surfaces.

Made by Bird-B-Gone in the USA!

Advantages & Benefits

- ▶ Available in four sizes: 2', 4', 6', and 8'!
- ▶ No assembly required - Easy to install, easy to store.
- ▶ Variety of mounting options available!
- ▶ Humane, will not harm birds!
- ▶ Virtually invisible and maintenance free.
- ▶ Ideal for a variety of applications including shopping centers, parking lot lights, signs, electrical equipment, rooftops, boats and more!
- ▶ No-tangle "Scuff Free" tips protect surfaces and help arms bounce and move with the breeze.

Locking mechanism keeps Bird Spider attached to base while spinning.

Variety of mounting options available.

"Scuff Free" tips protect surfaces and help arms move with the breeze.
