

CASE STUDY

Bird Spikes Installed At Weather Station

Location: California

Bird Problem: Bird droppings that had accumulated on equipment had compromised the stations functionality.

Product Installed: Bird•B•Gone® Stainless Steel Bird Spikes™

Product Details: Stainless Steel Bird Spikes™ are a physical bird deterrent used to prevent birds from landing. The spikes were installed at the weather station due to the variety of weather extremes that occur at the elevation. Not only will the spikes prevent birds from locating on the station, but they will also remain strong despite weather fluctuation.

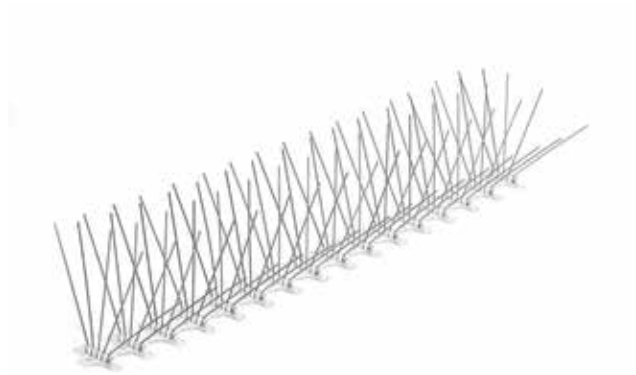

Stainless Steel Spikes come in 2 ft. lengths but can easily cut down to match a desired surface length.

Spikes are a simple, effective, and humane way of preventing birds from landing.

Bird•B•Gone spikes are flexible and can be installed efficiently on flat or curved surfaces.

Stainless Steel Spikes come with a 10 year guarantee and are ideal for outdoor use.
