

**NEW**

# EcoBird® 4.0

Bird Species	All birds
Where to Use	Various indoor and outdoor environments
Material	Methyl Anthranilate
Bird Pressure	Light to heavy
Warranty	5 years

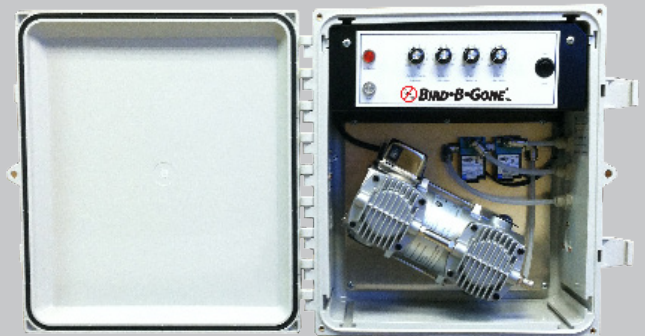

EcoBird® 4.0 was developed as a non-hazardous bird repellent, made from food-grade materials, which may be used to effectively remove birds from indoor and outdoor environments. EcoBird® 4.0 is designed for use with professional mechanical spraying & fogging equipment that deploys a light fog or haze. The active ingredient in EcoBird® 4.0 irritates a bird's mucous membranes. Birds find the sensation unpleasant and will subsequently avoid the area. The effect is temporary and will not harm birds.

## Advantages & Benefits

- ▶ EPA approved: safe for indoor and outdoor applications
- ▶ Non-hazardous bird repellent made from food-grade materials
- ▶ Utilizes 40% active ingredient, Methyl Anthranilate
- ▶ Does not harm birds, people, or pets
- ▶ Ecological and economical
- ▶ For use with mechanical spraying & fogging equipment
- ▶ For indoor fogging use: undiluted at a rate not to exceed one (1) fl. ounce per 10,000 cubic ft.
- ▶ For outdoor fogging use: undiluted at a rate of 6-8 fl. oz. per acre
- ▶ For outdoor non-fogging applications (e.g. landfills, & non-fish bearing bodies of water) apply at undiluted at a rate of 2.5 gallons per acre (8 lbs.a.i. per acre)

## Tips & Tricks

Use EcoBird® 4.0 with Bird•B•Gone® Hazer to effectively deter pest birds.

## Ideal for use in:

- ▶ Airport hangers
- ▶ Warehouses
- ▶ Semi-enclosed docks
- ▶ Grain storage & manufacturing facilities
- ▶ Parking facilities
- ▶ Power plants & factories
- ▶ Golf courses, parks, lawns
- ▶ Crops, trees, shrubs
