

# Instant Repair Patch

## No Mixing, No Measuring, No Mess

The Instant Repair Patch is an easy-to-use, UV activated patch that creates long-lasting repairs. This reinforced polyester patch is perfect for making watertight, durable seals on a variety of objects.

## Advantages & Benefits

- Flexible, waterproof, weatherproof and UV resistant
- Can be drilled, taped, sanded and painted in less than an hour after cured
- Resistant against many chemicals, solvents and oils
- Temperature resistant from -40° C to 200° C
- No shrinkage or expansion during the application
- Bonds to all surfaces except Polypropylene (PP)
- Fast curing: in as little as 5 min. depending on UV intensity

## Also Available: UV Light Activator
